Paterson, New Jersey

FACT SHEET

MD Consult

Through our affiliation with Mount Sinai School of Medicine, we can offer you access to MD Consult. MD Consult was created through a joint venture of medical publishers: Mosby, Lippincott, Williams & Wilkins and W.B. Saunders, and brings together a variety of clinical resources integrated into one service on the Internet.

Resources include:

- MEDLINE database
- 38 medical textbooks full text
- Drug Information from Mosby's GenRx
- Clinical Practice Guidelines
- Patient education handouts
- 48 Full-Text journals
- CME center

Also available are the following features:

Today in Medicine: Reviews new developments from journals, government agencies and medical conferences and provides concise clinical summaries

What Patients are Reading: Items in the popular press are highlighted and peer-reviewed material is provided to help in answering patient's questions

In This Week's Journals: Key contents of the major journals are presented along with article summaries

Drug Updates: Recent drug approvals, notices and other current pharmaceutical information is available

URL: <http://www.mdconsult.com>

First time subscribers need to access MD Consult from a hospital computer through the library's intranet site at <http://home.sjhmc.org/libraryintranet>. Once you have your user name and password, MDConsult can be accessed from both the hospital or from your home or office.

Contact the library by phone at 973-754-3590, fax at 973-754-3593 or email library@sjhmc.org
